

567—22.133 (455B) Acid rain permit contents—general.

22.133(1) Each acid rain permit (including any draft acid rain permit) will contain the following elements:

- a.* All elements required for a complete acid rain permit application under rule 567—22.129(455B), as approved or adjusted by the department;
- b.* The applicable acid rain emissions limitation for sulfur dioxide; and
- c.* The applicable acid rain emissions limitation for nitrogen oxides.

22.133(2) Each acid rain permit is deemed to incorporate the definitions of terms under rule 567—22.120(455B).
